Re: The Ellsworth Industrial Park Superfund Site
Bison Gear Property (Flowserve), 2424 Wisconsin Ave., Downers Grove

Dear Mr. Krueger:

I have looked at the form you sent this morning. I assume no hazardous materials will be disposed of on the property, but the word "off-site" could simply be added, rendering the phrase "disposing *off-site* of hazardous materials" in the second indented paragraph. Since May has 31 days, you may make the end date May 31 if you like. The property owner should have the name and telephone and facsimile numbers of the U.S. EPA's contact person so there can be no confusion if the contact has to be reached in a hurry. I'm sure the client will give you the name of its contact immediately. Otherwise it looks fine.

Very truly yours,

Johnine J. Brown
